

CLAUDIA MILLS WEAVER

3823 Pearl Street • Philadelphia, PA 19103 • 617 - 386 - 2347 • www.claudiamills.com

Once I receive your materials I will then do a design of the rug on paper to scale. Instead of using paint or colored pencils, I use the actual fabrics and yarns that I will weave into your rug. This way you can see the true colors. I will send this initial design to you for approval. At this point changes can be made. After a final design is reached, the weaving is scheduled.

How to Order a *Custom Rug*

1. Look through the web site to see what style of rug you prefer. There are two types of weave styles, Log Cabin and Block Weave. Each rug on the web site is labeled as one or the other.
2. Decide if you want to order a fabric or leather rug.
3. Determine the size rug that will best fit your space. I can also advise you on rug size based on room size.
4. Choose the colors you would like to include in your custom rug. Collecting color ideas from other parts of your space is a great way to choose colors for your rug. Paint chips from the hardware store are good, as well as snippets of fabric.
5. Take pictures of the space where you want the rug to go. Seeing the location for the rug will help me visualize an ideal custom design for you. If possible, I can do a house call to actually see the space.
6. Send a package of all the collected items to me at:
